NUX IRON PEPSIN and DEATH WATCH

SARSAPARILLA - Effective Spring Medicine Combination.

As comprised in Hood's Sarsaparilla and Peptiron, taken in conjunction, these valuable remedies possess
unequalled value for the quick relief
of a long train of aliments common in
the Spring season. You know well the
great tonic properties of iron. They
are much increased and improved in
this combination—Hood's Sarsaparilla
before meals and Peptiron after.

In these days of rushing and pushing, beyond the endurance of even the
most robust, nearly every man and
woman needs this blood-purifying,
cleansing, up-building in the Spring.
If it is not supplied, the depletion of
the blood and the broken-down nerves
may soon give way to permanent ill-

may soon give way to permanent ill-health.

If a cathartic is needed, as where there is billousness or constipation, Hood's Pills should be taken. They are purely vegetable, do not irritate.

OF PETE LAWSON

Chaplain of Prison Tells How This Watch Is Kept in Little Brick Death House.

(Special to The News.) Knoxville, March 20 .- The "death watch" over Pete Lawson, sentenced to be electrocuted at the state peniten-tiary in Nashville Friday morning, will begin Thursday afternoon at 4:30 o'clock, announces Rev. W. F. Black ard, chaplain of the state prison, who is in Knoxville. Mr. Blackard will re-turn to Nashville in time to begin the

Three or four guards will be kept with Lawson from the time he is taken with Lawson from the time he is taken from the Davidson county jail to the "death house." These guards will alternate all during the night, but Rev. Mr. Blackard will remain with the condemned man from the time he enters the death house until the prison physician has pronounced him dead. The death house is described by the chaplain as being a little two-story brick house, with practically no furnibrick house, with practically no furni-ture. The first floor is of concrete and the only furniture is the large table upon which the executed men were laid out when hanging was in vogue. The second floor contains three death cells, the partitions and ceilings of which are heavy iron bars, and the death chair, which is placed on a plat-

The condemned man is taken to one of the death cells late in the afternoon before he is to be executed on the next morning. The death watch is started upon his entrance into this cell. The prison chaplain remains with him for consultation and advice until

the execution.

Rev. Mr. Blackard states that has had a number of conferences with Lawson and that he claims the charges are the result of a "frame-up." "I alare the result of a "frame-up." "I al-ways tell him to hope for the best, but to be prepared for the worst," he said. "He states that if it is necessary for him to do so, he is ready to give his life in payment of a charge of which he is innocent." Lawson was convicted in criminal

court here on a charge of rape.

Efforts are being made, says his attorney here, to get a third respite from Gov. Rye.

PIKEVILLE ENJOYS FLAG PRESENTATION

Roll of Honor for Southern Methodist Union-Service Flag With Nine Stars.

Pikeville, Tenn., March 20 .- Decidedly of the most interesting programs ever heard in Pikeville was presented at the courthouse Sunday morning, March 10, 1918. This was a service entertainment, under the auspices of the South-ern Methodist church, wherein the Sun-day school and the Ladies' Missionary society presented to the church a roll of honor and a service flag bearing nine stars. Each star represented one mem-ber from that Sunday school who is now absent in the service of our country. One of the absent boys is now somewhere in France: one in headquarters division, Camp Jackson, Columbia, S. C.; one in headquarters division, Fort Crocket, Galveston, Tex.; the other six in the 114th

field artillery, Greenville, S. C. The scroll was carried by Ma James Clinton Stone, followed by Miss Ruth White bearing the service flag and Misses Lena Rose Ferguson and Pansy Haswell carrying the grand old Stars and Stripes. Mrs. Lee Tollett read the roll of the following honored names: Otto Thurman Ault.

N. J. Ferguson, Jr. Claude Eugene Haswell. Ray Floyd Schoolfield. Clifford Eugene Stone.

YOUR SICK CHILD IS CONSTIPATED! **LOOK AT TONGUE**

Give "California Syrup of Figs" if cross, bilious or feverish.

Hurry, Mother! Remove poisons from little stomach, liver bowels.

No matter what alls your child, gentle, thorough laxative should always be the first treatment given. your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look. Mother! see if tongue is coated. This is a sure sign that the little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour breath bad, or has stomach ache, diar-rhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of the bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never falls to cleanse the little one's ver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages, and for grown-ups winted on each bottle.

winted on each bottle.

Beware of counterfeit fig syrups.

Ask your druggist for a bottle of "California Syrup of Figs." then see that it is made by the "California Fig. Syrup Company."-(Adv.)

Albert Bernard White. Ray Hobert White. William Albert White.

Homer Garrett White. Presentation of service flag was made by Supt. L. N. Brown to the pastor, Rev. J. M. Walker. Mr. Brown made with his presentation a most eloquent speech, noting the five points of each star and

what they represented.

The speech of acceptance by Rev. J.
M. Walker was very brilliant and instructive, bringing out many points on prayer, religion and patriotism.

FOUR NEUTRAL NATIONS IN DESPERATE STRAITS

Pressure From Germany and From Allies Increases-May Be Forced to Fight.

(Ryley Grannon, in Washington Post.) The four neutral nations of northern Europe are in desperate straits as a result of the pressure from the allies and Germany. Each of these neutrals is in a predicament which forces it to consider the possibilities and conse-quences of throwing off neutrality and

For the time being Holland is in the most critical position, on account the ultimatum delivered by Gree Britain and the United State terminating today. The Netherland government has signified its account the state of the sta ceptance of the terms of the ultim tum, but this acceptance is looke upon by the allies with extreme susp clon as a ruse to gain further dela It will not succeed. Whether the take ng of Dutch ships brings peace war, the allies will take them over.

Concessions Made to Germany. Germany is furious over the fa that the allies are in a position to take over 1,000,000 tons of Dutch ship without any possibility of direct retaliation. The Dutch government in fear and trembling lest German will wreak upon Holland the hatre she feels for the allies. .

Accordingly the Dutch government has offered generous concessions to Germany to offset the taking of the ships, but it remains to be seen whether Germany will be satisfied. The opinion expressed generally by European diplomats is that Germany will not be satisfied until Holland is in the war. They believe that Germany intends to possess herself of the mouths of the Rhine before this war is

Sweden on War's Edge.

Next to Holland, the neutral that is Germany's high-handed usurpations in the Baltic have alarmed Sweden, and inflamed the Swedish nation into a passionate resentment.

The Aland islands have long been coveted by Sweden, and geographically they belong to Sweden. With Germany occupying them, Sweden is dependent upon Berlin for permission to use the Gulf of Bothnia, which can be made a closed sea whenever the Germans desire.

Germany is understood to have given "assurances" to Sweden that the oc-cupation of the Aland islands is but emporary. These assurances, however, are not taken at par by any na-tion since the violation of Beiglum.

Teuton Pledges Valueless.

Germany finds it impossible to con vince either friends or enemies that her promises are worth acceptance. Therefore Sweden is casting about for some more effective assurance that Germany will not override Swedish sovereignty, either immediately or a little later, after the first impress of the yoke has worn off.
One of Sweden's embarrassments is

her record in the Bernstorff and Luxburg conspiracies against the allies. The complicity of the Swedish foreign office in transmitting murderous dispatches to and from Berlin nearly caused a revolution n Sweden when

the facts were disclosed. The offending officials were dis-missed, but the allies have never fully trusted Sweden since that the. They ave little sympathy for her now, and will not go out of their way, to assist her in the event that Germany should make still further encroachments.

Allied Sympathy for Norway.

With Norway, however, the allies are in lively sympathy. They have found Norway honorable, while reluctant to take any steps that would bring down the wrath of Germany. There is good reason to believe that the allies have agreed upon a general plan of instant action in case of German assault upon Norway. The allied fleet is in position to occupy the Nor-wegian ports and patrol the coast, FIRST OF WOODEN SHIPS

LAUNCHED AT NEWARK, N. "Coyote," of the Ferris Type, Float-ing at the Yards of the Foundation Company.

Newark, N. J., March 20,-The Coyote," first of the Perris type of wooden cargo steamers building under the emergency fleet corporation's program, was launched here today at the yards of the Foundation company, in the presence of hundreds of cheering spectators. Miss Phyllis Hughes, daughter of the late Senator Hughes, of New Jersey, christened the vessel and Chairman Hurley, of the shipping board, attended the launching.

Contracts for ships of this type wer placed by the fleet corporation las summer with twenty-three shipbuild ing firms on the Atlantic coast. The "Coyote" and other vessels of her type, measure 281.6 feet in length, 46 feet 23.6 feet deep and displace beam.

The ships are of the single deck cargo type and are driven by 1,400 horse-power, triple expansion engines. which will give a speed of ten knots

CASHIER DEADERICK IS KILLED AT LEXINGTON

Lexington, N. C., March 20.—J. Franklin Deaderick, cashier of the Commercial and Savings bank here, was shot and instantly killed here Tuesday afternoon by J. Graham Hege. manager of the Southern Upholstery company. The shooting took place in the sitting room of the Hege home. Five shots were fired, two of which took effect. Hege immediately after the shooting telephoned to the sheriff

and gave himself up. Further than to say that he shot in defense of his home, Hege would make no statement The men had been the best of friends, the back lots of their homes adjoin-The dead man was a nephew of ner Gov. R. B. Glenn, of Winston-om. Hege was committed to juil without asking for bond.

KNIGHTS OF COLUM WAR FUND \$1,414,976

Yorke March 19. A grand to tal of \$1.414,576 was reported Tuesday night at the close of the se -- day of the New York Knights of Columbius campaign for a war fund * \$2, 200,000 for social service work among American soldiers and sailors,

DREAM OF CITY MAY COME TRUE

Announcement of Proposed Gigantic Nitrate Plant for Knoxville.

(Special to The News.) Knoxville, March 20.-Erection of

gigantic nitrate plant near Knoxville, similar to that proposed at Muscle Shoals, as announced by Washington officials, will mean the realization of a dream this city has entertained

Within the radius of seventy-five miles of Knoxville a survey made by the board of commerce for the war department shows that there exist waters powers still undeveloped capable of yielding a total of more than 600,000 horsepower. This figure is exclusive of powers under 5,000 horsepower, and of those now in process of being developed by private capital. Sreams in this vicinity, and horse-

Data of War Department.

The war department was also furnished data showing the economic and strategical advantages of Knoxville. The city is in the exact cenfer of the eastern part of the United States, to which nitrates or its products in munitions would need to be shipped. The nearest point on the Atlantic ocean is Charleston, S. C., 421 miles from Knoxville; the nearest point on the Mississippi river is Memphis, 423 miles from Knoxville; St. Louis, an important point on the Mississippi river, north of Memphis, is 539 miles from Knoxville; Norfolk almost of the latitude, on the Atlantic ocean, a rendezvous for our navy, is 639 miles from Knoxville; Mobile, an important point on the Gulf of Mexico, is 541 miles from Knoxville; Detroit, on the Great Lakes, is 543 miles from Knoxville Washington, 509 miles from Knoxville; Baltimore, 549 miles from Knoxville Jacksonville, 546 miles from Knoxville; Pensacola, a winter rendezvous for the navy, 514 miles from Knoxville More distant points include Portland, Me., the extreme eastern-most commercial center, and a rendezvous for the navy, 1,076 miles from Knoxville; Key West, the southern-most rendez-vous for the navy, 1,086 miles from Knoxville: Duluth, on Lake Superior and close to the Canadian border, 1,044 miles from Knoxville; Galveston, from which part the United States troops were embraked in 1914 en route to Mexico, 999 miles from Knoxville; St. Paul, a northwestern point and a disville; and Houston, 950 miles from Knoxville.

Lincoln, First Booster.

East Tennessee enjoys the rare distinction of having been especially recognized by a great patriot for its value in strategic location. In his message to congress of Dec. 3, 1861, President Lincoln recommended, as a military measure, the construction of a railroad to connect Cincinnati and Knoxville by way of Lexington, Ky., and Cumberland Gap. (That and other roads have since been built by private en-terprise). A few days after that message, Lincoln personally went to the president's room in the capitol building and called about him a number of leading senators and representatives,

and said in substance: "I am thoroughly convinced that the closing struggle of the war will occur somewhere in this mountain country. By our superior numbers and strength we will everywhere drive the Confederate armies back from the level districts lying along the coast, from those ying south of the Ohio river, and from those lying east of the Mississippi river. Yielding to our superior force they will gradually retreat to the more defensible mountain districts Kentucky, Tennessee and West Virginia come together." he seven states of Virginia, North

Knoxville is the most central or onverging point in the territory which incoln described.

History vindicated Lincoln's wis-lom. Gradually yielding to superior numbers the valiant Confederates retreated from Columbus, Ky., Fort Henry, Fort Donelson, Nashville, Shich, Corinth, Island No. 10, Memphis licksburg, Port Hudson, New Orleans, Mobile, and all points on the Gulf and Atlantic coasts, Then the cordon gradually tightened until the collapse ame in the spring of 1865. ollapse was approaching the armies f Lee and Johnston endeavored to unite and fall back to the same moun-

Right now is the time for you to egin taking a good spring tonic. You feel all tired out at night, you get up motnings feeling same way; things on't taste right; your liver is slugkish; you don't sleep well; you have indigestion and are constipated, burt n head and back, b cause your sysem is full of poisonous matter accum lated during the winter and needs leaning out and toning at once. For a we strongly recommend Vin He patter, which is composed of eight of the finest of all-vegetable system cleansers and tonics known to medcal science. It sure does the work, Just ask any of us here in the store for

tain fastness that Lincoln had pointed out in December, 1861.

WASTING NOTHING AT CAMP SEVIER

Saving Bottles, Tin Tubes, Tin Cans, Tinfoil and Paper. Splendid Work.

Greenville, S. C., March 20 .- Nothing is being overlooked these days at Camp Sevier that might have the slightest salvage or even junk value. In a memorandum of recent date from division headquarters, published for the informa-tion and compliance of those concerned, various articles are named for conservation, and a method pointed out whereby this work may be facilitated.

Bottles and glass jars which have here tofore been carried to the dumping grounds are now coming into warehouse No. 5 by the wagonload daily, where they are sorted and held ready for shipment. In consideration of the great amount of toothpaste, shaving cream, cigarettes, candy and chocolate that is used or consumed in the camp, the reclamation de-partment has recommended, and in consequence thereof the division commander has ordered, that all tinfoil and lead tubes he saved and turned into ware-house No. 6, which is being used exclu-sively by the reclamation department for storage purposes. Wooden boxes for-receiving these articles have been placed near the orderly room on every company street and in all the canteens. A thorough and rigid policy of conservation in regard to these two articles particularly has been urged by the reclamation

division at Washington. For a long time no use had been found for tin cans and they consequently have been thrown on the dump by the thousands. Now, however, owing to a re-cent letter from Washington, in which, lieved that they are utilized in the manu facture of munitions.

Even waste paper is no longer "waste" paper, but "saved" paper, and is han-dled in camp in the same way as tinfoll and lead tubes. When a sufficient amount has been turned into warehouse No. 6 it is baled and held ready for shipment to the nearest reclamation depot. By the working over of the enormous amount of paper that comes into these depots from various camps through the states, the government is realizing a handsome sav-ing, as well as materially aiding the paper manufacturing concerns of the country whose productions have been unequal to the demands.

All these articles are but a small part of what is being saved. Time and space forbids the mention of them all. Suffice to say that the army camps have been awakened to their responsibilities along these lines, and from now henceforth may be counted upon to do their share of saving and conserving.

FACE WRINKLED? COMPLEXION SALLOW?

Then Why Not Treat Your Skin as Beautiful French Women Do?

Paris:—Science has discovered that faded, mottled, aged-looking complexions can be virtually renewed and made surcan be virtually renewed and made surprisingly beautiful by means of the following recipe: Merely wash your face
with buttermilk and rub in a teaspoonful
of Creme Tokalon Roseated; wipe the
face and apply Poudre Fascination—
avery fine complexion powder prepared
especially for shiny noses and bad complexions. If your face is badly wrinkled, get a box of Japanese Ice Pencils to use in connection with the roseated cream and you should get quick
action on even the deepest wrinkles.
Thus do famous French actresses preserve the rare beauty of their complexions, and if you were to pay hundreds of
dollars for special treatment you probably would not be anything like as well
off as by using this simple and inexoff as by using this simple and inex-pensive recipe. The articles mentioned above are supplied in this city by Jo Anderson, D. B. Loveman Co., Bowman Quarles Co., St. Elmo Drug Co., Morri-Inc., Live and Let Live Drug Co

OF MEASLES

Mother, Who Lives in Tennessee Mountains Where Black-Draught Is Relied On in Many Troubles, Says It Made Her Boy Sound and Well.

Coal Creek, Tenn.-Up in the mountains, quite some distance from town lives Mrs. U. S. Fritts, who relates her experience with Thedford's Black-Draught as follows:

"My little boy, James, took sick with diarrhea, about five years ago, and was badly swollen. He had the measles and this was, no doubt, an after-effect. I made him well by giving him Thedford's Black-Draught, I gave it to him three times a day for a month. I firmly believe it saved his life.

"We always keep Black-Draught in our house. It is our doctor. Always easy to get and prompt in giving re-

"A small pinch of Black-Draught after each meal and at bed time for headache, stomach and liver trouble, and we are well the next morning. "It certainly works wonders some times and saves no end of trouble, relieves pain, and there is no need for another doctor.

"I have recommended Black-Draught to all my neighbors and will continue to recommend it." Thedford's Black-Draug! t is a pure, egetable herb liver medicine, acting gently, yet promptly, on liver and

Thousands of people, everywhere ave found it to relieve constipation, ndigestion, biliousness and many sim-

ar disorders. Try Black-Draught. Your druggist selis it.-(Adv.)
